### Touring Coplete Avatar

**https://0x8.ch/HackersCardgame7**

**Inventor: ???? Year: ~???**

With enough computational Power one could create avatars (speech synthesis / deep fakes) that are **"touring complete"**. = Avatar that can do everything real person could also do. Initially they used samples but one would find out if they use the same sample over and over again. Sociology design patterns with multiple touring complete Avatars **one even could simulate complete real-live situations**. You can never be sure if person you hear on eg Stimociever/US4877027 is really the person/group you are talking with. So best thing is to meet face to face (then they abuse this technology too but if you know this person well you would possibly find out). **Touring Complete avatars not just simply exist, they had to be generated by unknown**. If one **knows too much** about this sort of technology it **would be likely that they create avatars for the people he knows and trusts, like Family or near friends**.

### (Cyber-)Isolation Cell Padded Cell

**https://0x8.ch/HackersCardgame7**

**Inventor: ???? Year: ???? t36**

Mental Institutions have Padded Cells or Isolation Cells where they put patients in. I was several times in such a Cell, the funny thing in Switzerland is, that the padded cell is not even padded. They say it's for people that would like to commit suicide, they even lock victims with straight jackets. It's about sensory deprivation, sensory deprivation is psychological violence or also some sort of behavioral "sciences". IMHO it would be better to put the people who victimized the victim into jail.

They do the same thing with your contacts, there are several ways to isolate people from their social network and even from their family. I'm not quite sure, but I guess if they put you in a Isolation-Cell, the Network automatically isolates you for example also in your Social Network or the Internet. On the other hand empirical value can't be taught

### tooth beacon

### ICD10 - F44.X Chess Clock

**https://0x8.ch/HackersCardgame7**

**Inventor: ???? Year: ???? t37**

IMHO there's sort of Cyber Mainframe Chess Clock that puts people into dissociation state. makes them blind for certain things or people, even if would live in same appartement. technically one could implement that with "Behavioral Sciences" also known as torture. If you cause strong PAIN (see microdot below image) as soon as the one you love is in sight (eye1 card), maybe linked to an additional Stimulus (accoustic, visually, implants...) things or poeple might be invisible <insert>for the person that should not have read the PAIN diskmag</insert>. **Worst case: "used" to rape young boys & girls; best case: helps to GUARD the world**. Since we don't know **expect the worst**. I don't have prove yet, but there was a two seconde scene I can remember in mental institution, where she stood in front of me and I was on my knee having "some" pain, as soon as i have prove or hacked it with the microdot i will maybe create a card in hackers card game, **unsure if hack would be blue or red team**

### Needle Array

**https://0x8.ch/HackersCardgame7**

**Inventor: xxxxx Year: ~???? t28**

Elon Musk says "we dont have enough bandwidth to the brain" but if you look at research like "micro needle array" then you would see, that one could create massive parallel interface to the brain. We guess the design of Elon Musk's interface is completely bad and that he even knows that. That what Elon Musk shows in his shows about the Neuralink would just be some sort of Neuronexus Product that he possibly did not even develop himself. It would be very likely that Elon has already such an implant and is now producing a low-tec interface that would act as honey pot. We will send this card to elon with the hashtag #Neuralink but we don't think that he will answer, maybe even filtered or he is being blackmailed by eg. the CIA....
