YOU are SCHIZOPHRENIC!

QXx-n6T7tZg · **m9** · Year: **~1908**

Inventor: Satan / Eugen Bleuler

N. Lat .: morbus dissidentiae phreneticae, also known as Bleuler's disease. Differential diagnoses: autism, developmental disorders, dissociative identity disorder (in passive), delirious (judging?) Depression, injuries, tumors in the brain, various forms of dementia, confusion, disorientation, psychotic states, Borderline Personality Disorder, random personality disorder, compulsive thoughts, pernicious anemia, induced disorder #MKULTRA.

Marc found strange behavior in the LAN in Altstetten (ABB,1999). he guessed this must be CIA footprinting / enumeration for world domination. They attack the 20 Years old Marc with illegal drugs declared him schizophrenic(discriminate / discredit / isolate / planning / calling him a rapist. They did experiments with him to force others to commit suicide, but thats not marcs fault)

Pädo Plagiats Algorithmus

m109 · Year: **~????**

Inventor: xxxxx

Das System verkauft das was das 1980er Kind sowieso tun würde (z.B. das erstellen dieser Karte) dem 1960er Pädokriminellen als "du hilfst dem kind, dein kind muss dir dankbar sein dass du es steuerst"...

Wenn das kind dann mit suizidversuchen beginn sobald dieser algorithmsu auch bei ihm so eingebeldet wird muss von pädokriminalität des 1960er elternteils, und auch von misshandlung durch den entsprechenden 1960er elternteil ausgegangen werden PFSTIERER: SPRENGFALLEN AKTIVIEREN <- pfisterer versucht so mit terrodrohungen die Taten der 1960er Täterschaft weg zu "therapieren" (also zu vertuschen) also terrorismus einzublenden um das was oben steht zu überschreiben also pfisterer droht kaltblütig mit sprengfallen, und da z.B. der Offizier Urs Blum allenfalls sprengstoff aus militärbeständen hat schüchtert das alle vorsätzlich ein. Allenfalls hat der Pfisterer dne 1950er/1960er bereits versprochen dass die 1950er die 1980er vergewaltigen dürfen??? Pfisterer produziert mit m107 vorsätzlich Amokläufer

ABDL

m47 · Year: **~???**

Inventor: xxxxx

If you ask Google ADBL means "Ad Blocker" but maybe it has another meaning.

But maybe it's for those who have the bad luck not to having own kids. But if you have kids people maybe would thinkg you are pedophile. **Important:** make sure that the comint does not make your partner think you secretly married someone else and have kids with him or her. So only klick that with equal aged, and only then when you are 100.0% sure that you are not pedophile and never will become pedophile. see cards m41, ra5, m37 and a16 if a15 and the group would get dt1. But playing with only one equal aged sane and consensual with diapers maybe also helps to process things that went wrong in the (early) childhood.

"Anti"psychotics
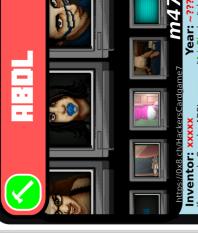

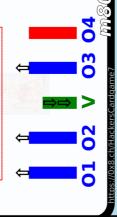

m150 · Year: **~????**

Inventor: Satan

If i don't have anti-psychotics, there is some baseband load of things that makes me psychotic, and about once a day the system makes me slap my fists on the head, the reason why i bought a autism helmet. With risperdal the base load is much smaller. This seems to enable immediately after i took the Risperdal (Eventtrigger on drug). This makes me think that everything is ok. But though there are Bursts of bad scenes, and this scene is then looped for about 15 Minutes, but then gets down-voted. In my opinion the lower base-load would decrease my ability to cope with such things, since i don't have that much training anymore as without anti-psychotics. The bad scene is then deleted, that is great for not beeing psychotic, but in this world maybe a "good situational awareness" and training would be better that the patient learns to survive.

3D model of victims body

m99 · Year: **~????**

Inventor: xxxxx

Like the m98 Card they seem to have also a 3D model of my body, most likely generated from a RetinaCCD (eye1) and they also add eventtriggers (t14) that then eg activates eletronic psychological warfare, eg chains like co6 ⇒ m32 ⇒ m94 ⇒ m44 ⇒ m93.

Not yet found out how to workaround that problem, i will update this card when i found out, and maybe make some videos to explain.

This card seems to have several DEFCON Level

If i say: "Hansjürg now asked his mummy for help" the algorithm gets more worse, additional it seems that the System or Project Paperclip then gives out more informations about the complete domin model of the aledged infiltration of switzerland, maybe to obfuscate the 1940s neurology classes? *Chemitrode gesicht* *icd10-f44x* <-

Mental Operations

m11 · Year: **~????**

Formal Operations — Hypothesizing, Hypothesis Testing, Deduction. Concrete Operations — Classification, Reversibility, Seriation, Conservation, Transitivity, Decentering.

Jean Piaget (* 9. August 1896 in Neuchâtel; † 16. September 1980 in Genf) Entwicklungspsychologe und Epistemologe.

Inventor: xxxxx

Mental operations are operations that affect mental contents. Initially, operations of reasoning have been the object of logic alone. Pierre Janet was one of the first to use the concept in psychology. Mental operations have been investigated at a developmental level by Jean Piaget, and from a psychometric perspective by J. P. Guilford. There is also a cognitive approach to the subject, as well as a systems view of it. **Developmental view:** Seriation, Transitivity, Classification, Decentering, Reversibility, Conservation. **Psychometric view:** Operations dimension, Content dimension, Product dimension, **Cognitive view ..., Systems view....**

maximum profit Algorithm

m80 · Year: **~????**

PsyOP — O1 O2 V O3 O4

Inventor: xxxxx

The old generation seems to have some sort of Algorithm that calculates the maximal profit of an action they force to do a Victim. For Example if the Victim (V) would make a graphiti to tag an offender as Rapist or Murderer they would make let him do that, but they would record that scene, then Judge (O1) would start a criminal case, making profit with the law system. The owner of the building (O2) would get money for damage the victim (V) did, the painter (O3) that redraws the wall in white would get money for that Job... An additional "feature" of such an algorithm would be that in the end the Victim would be sentenced, shown in media as criminal, nobody would beleive him and nobody would talk about the equal aged kid that was raped or murdered, so the real rapist (O4) from the old generation and the person that has access to this algoritm (PsyOP) would be the main problem. unknwon: Weekens and discredits the Victim that knows about the rape or the murderer, intentionaly?

Chains Rattling

m20 · Year: **~????**

Inventor: xxxxx

Most children are "shipped" with items / behavioral patterns (or maybe it's just a technology card) to make noise, Satan then uses these functions (stimuli-response-habits) to terrorize people, relatives, targeted individuals. They play eg dt1 card on the parent and then activate the rattling function on the kid. In the end parents would hate the kid, or one of them. = psychological Warfare. The child gets "incentives" when it uses such functions and is not aware about the effect to victims, see m11, t1.... cards. To intimidate the victims (who do not directly see where the "chain rattling" comes from), The Child: "Yay, making noises (unheard: then I'll be less ignored, and incentivs)"
